## Arya Bâhram Birthdays Cards Collection

Do you remember your birthday  
Colour balloons, cakes, drinks, gifts, music, dancing and singing.  
Something that couldn't be missing was a birthday card as a reminder of that day.

As a child, I really appreciated these cards because they were just beautiful, always nice and funny, and that's why I collected them.

When I was in England and France (and later also in Vienna) I continued to collect these cards.

One day I looked at these beautiful cards and thought to myself: This collection deserves to be seen by other people too. But I also wanted to change these cards so that they really are mine.

Unfortunately, due to technical advances, I am afraid that these cards may not be seen in stores in the near future.

So I see this exhibition as a tribute to the people who produce these beautiful cards.

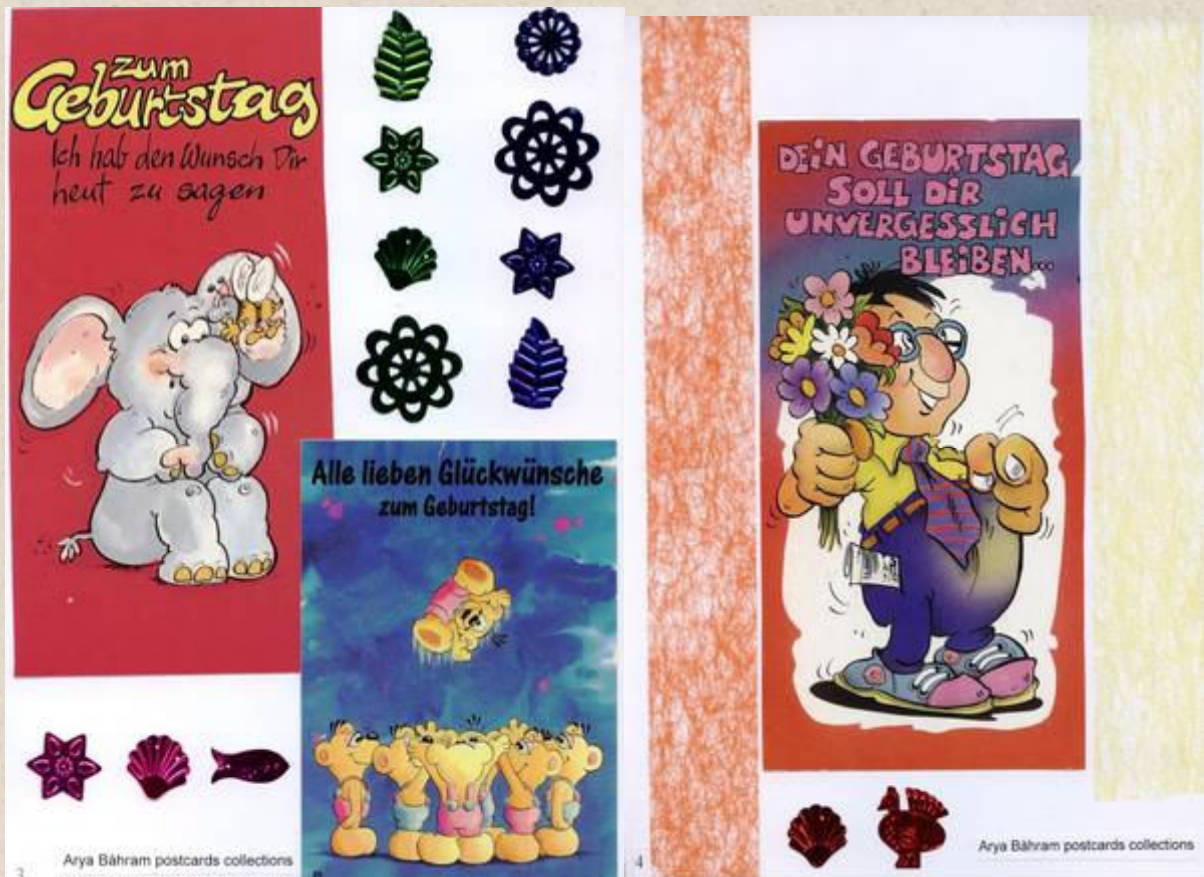

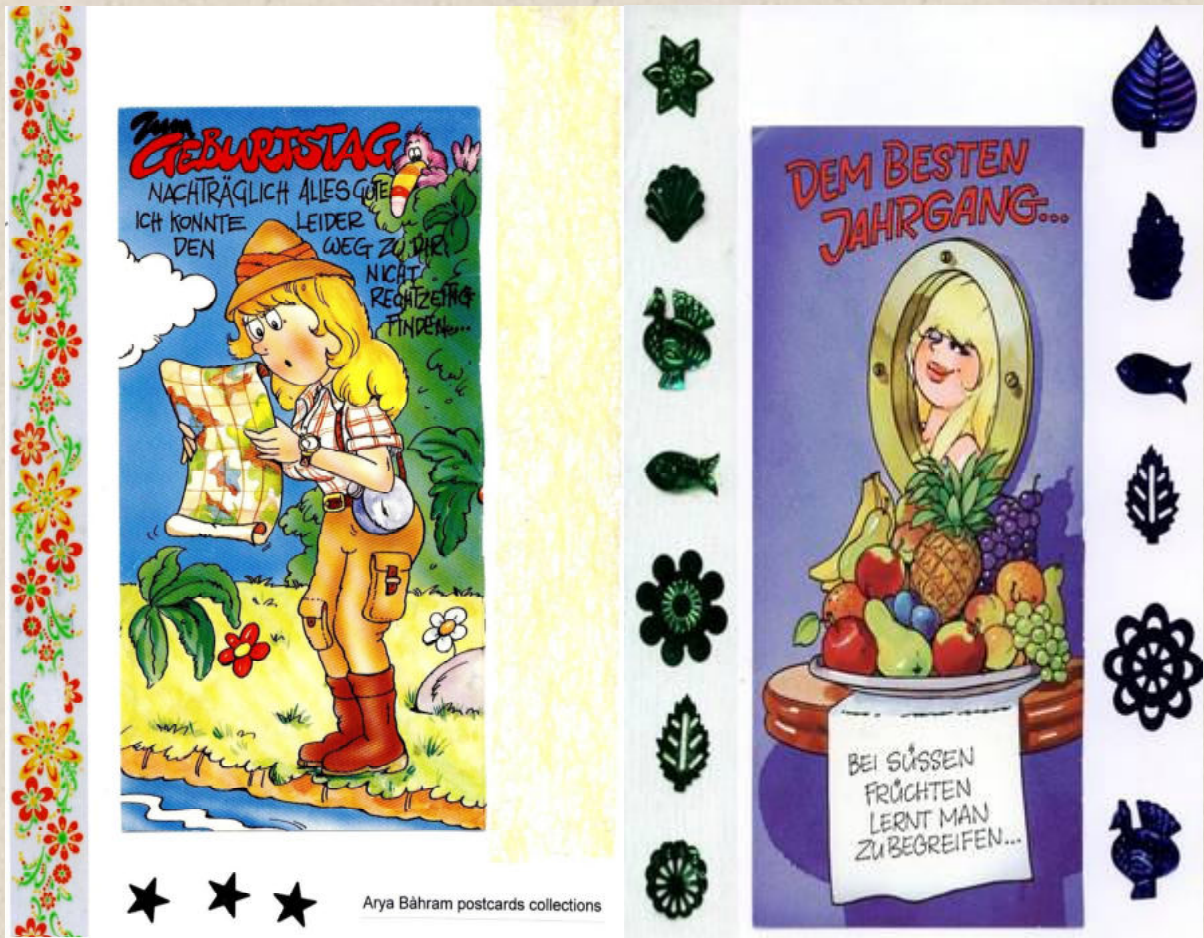

I cordially invite you to this exhibition and do not forget that after private cards were already legally permitted in the USA in 1861, they were first introduced in Austria-Hungary on October 1, 1869 under the name "Correspondence Card" so postcards are old friends too.

Have fun,

Arya Bâhram
