Everything means "Happy New Year! "

Do you remember the last night in the old year?

Colored balloons, cakes, drinks, gifts, music, dancing and singing.

And how was it with you?

Something that couldn't be missing was a New Year's card as a reminder of that day.

When I was in England and France (and later also in Vienna) I collected these cards.

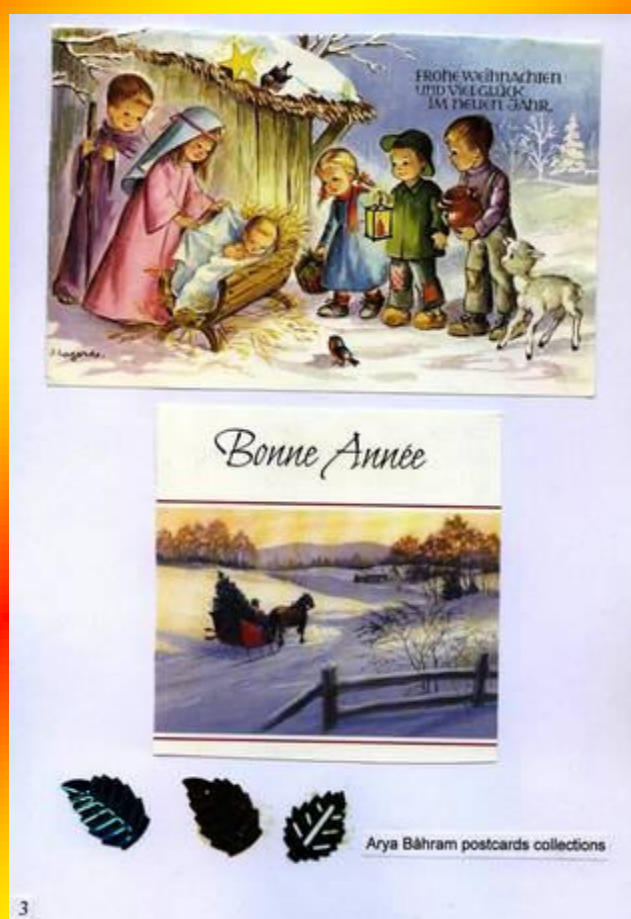

One day I looked at these beautiful cards and thought to myself: This collection deserves to be seen by other people too.

Don't forget that after private cards were already legally permitted in the USA in 1861, they were first introduced in Austria-Hungary on October 1, 1869 under the name "Correspondence Card", so postcards are old friends too.

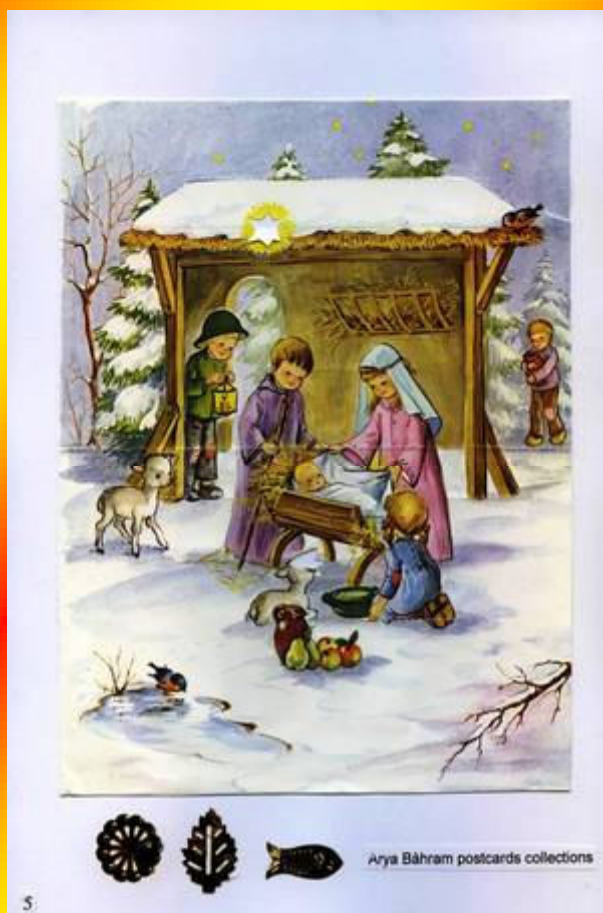

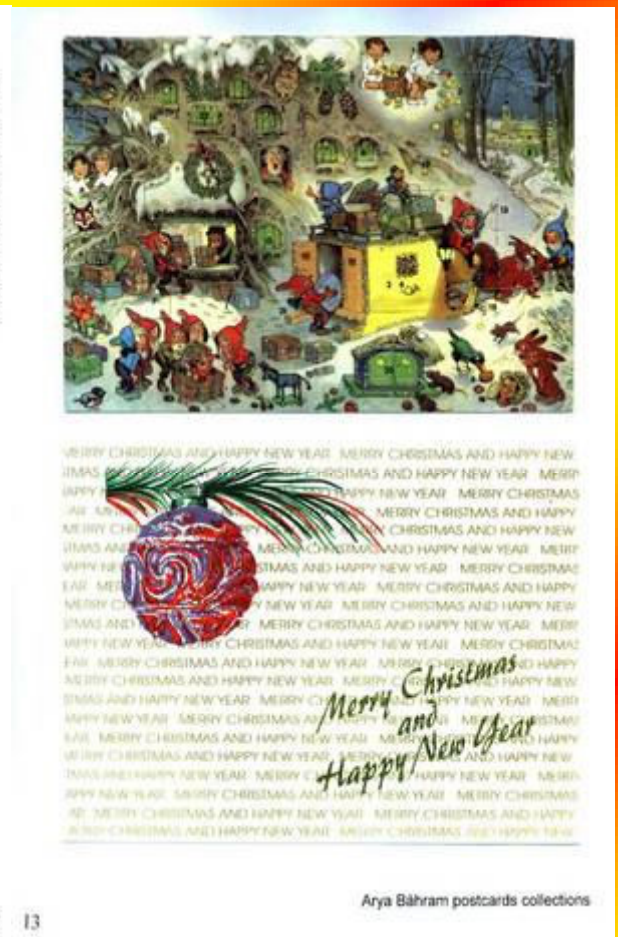

Special thanks go to my son Armin for the active support in my numerous projects.

**Have fun,
Arya Bâhram**
